## ABOUT SIDE X SIDE

Side x Side arts-integrated programs are collaborations between teaching artists and classroom teachers who work side by side with visiting professionals, community experts, and college interns to engage students in rigorous creative learning to deepen knowledge of a core subject and the arts. Students are immersed in a vibrant learning environment, gaining exposure to new career paths and community resources. They dig into individual work and also develop collaborative approaches to learning. Students from across the academic spectrum come away with a deeper understanding of subject matter and how it connects to their lives.

Our programs help students thrive by promoting health and wellness, increasing student engagement, and bringing joy and connection into the classroom. When students feel connected and are provided multiple pathways to learning, they are more likely to succeed.

*"I have seen firsthand the access arts integration provides for students. Some who are not always engaged in 'typical' settings see major success when they get to use art to demonstrate their learning."* - Portland elementary school teacher
